

Ever Consider the Enviro-Septic System for Phosphorus removal?

“Advanced Enviro-Septic pipes do very well with Phosphorus removal. Please check out our results in Table 3 below as achieved by third party testing using CAN/BNQ 3680-600 protocol”.

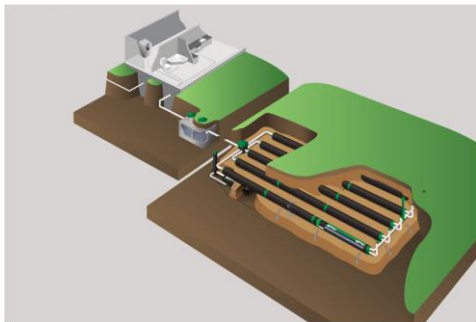

We tested phosphorus removal in two separate scenarios. In Line 1 we installed 600mm of system sand below the Enviro-Septic pipe and in Line 2 we installed 300mm of system sand.

As you can see from the Table, Line 1 (600mm of system sand) removed an average of 92.5% of the phosphorus where Line 2 (300mm of system sand) removed 65.75%.

Is phosphorus an issue in your area? Do you need a low cost, low maintenance system to reduce total Phosphorus? Please call Bert at 1.866.MAKE-WAY (625.3929)

Table 3: Total phosphorus (P.Tot) monthly average

Month	P.tot Influent (mg/L)	Line 1 P.tot Effluent (mg/L)	Line 2 P.tot Effluent (mg/L)
1	7.43	0.32	2.37
2	7.33	0.38	3.04
3	8.15	0.57	2.6
4	5.52	0.53	1.87
5	6.11	0.6	1.63
6	7.71	0.61	3.04

Did you know we offer more than just the Enviro-Septic System? Make-Way Environmental Technologies Inc has a wide variety of products to help you with all your septic needs! See our list below and call today!

- Filter Cloth
- Hiblow Pumps
- Pre-Assembled Indexing Valves
- Enviro-Septic System

Time Dosing Panels
Roth Plastic Septic Tanks
Zoeller Pumps
Automatic Distributing Valves

OUTLETS:
4 and 6
