It a New Year!

And what better way to start 2019 than with the most trusted certified passive treatment system available in Ontario!

- BNQ 3680-910 for use in Quebec. 10,000 systems installed in Quebec.
- NSF 40 for use in the USA. More than 200,000 systems installed in North America.
- CAN/BNQ 3680-600 for Ontario
- BMEC 18-05-386 Authorization for Ontario. We have a 96.7% compliance rate using 10 years of data. There are equivalent to 1000 systems installed in Ontario.

The Enviro-Septic System is by far, the simplest, most cost effective septic system producing Level IV quality effluent.

No moving parts

No electricity

No stone required

No 15 metre mantle

SPRING = SYSTEM SAND

Spring is not that far off, which make us think of SYSTEM SAND! System Sand is a very good sand to use for any septic system! It is similar to ASTM C33 sand. We have around 100 pits across Ontario that have qualifying sand. If the sand you want to use from your favourite pit is not listed on our [Google map](#), call our office, we will gladly have a look at it for you. If your sand meets our 4 criteria, then we call it SYSTEM SAND!

- Effective diameter (D_{10}) between 0.2 and 0.5 mm;
 - Coefficient of Uniformity (C_u) ≤ 4.5 ;
- Less than 3% of material smaller than 80 μm ; and
- Less than 20% of material larger than 2.5 mm.
