ENVIROSEPTIC^{MD}

PROTECTING OUR ENVIRONMENT

The most practical choice
for all your wastewater needs:

- ✓ Efficient
- ✓ Reliable
- ✓ Durable
- ✓ Affordable

A WORLD OF ADVANTAGES

Treating Wastewater the way Nature Intended

No electricity, pumps, or motors are required; the system naturally treats and disperses wastewater without noise or energy.

Forget about Special Maintenance

No media replacement required (such as peat moss, sand or other) and there are no mechanical parts to fail or repair.

Natural is Better

Aerobic bacteria create an ecosystem that naturally digests wastewater contaminants and protects the underlying soils. The treatment process is well adapted to a wide range of climatic conditions.

Keep It Simple

With no moving parts, this proven and reliable technology provides peace of mind to over hundreds of thousands of homeowners, business owners and wastewater professionals worldwide.

OOWA 2018 Convention and Expo's
PLATINUM sponsor! You
can find us at booths #205 and #207!

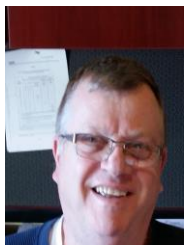

HOSTED AT THE:

DEERHURST RESORT IN MUSKOKA

April 15 -17, 2018

Take some time to meet one or all of our resident experts that you can find in our booth!

Bert Knip, Make-Way Environmental Technologies Inc., President. Bert has been the Ontario representative for the Enviro-Septic System since its 2008 BMEC approval. Bert is currently on the Board of Directors with OOWA and has been an Upstanding OOWA member since it began in 1999.

Sam Vreugdenhil, Make-Way Environmental Technologies Inc., Service Manager. Sam has joined us from Alberta and has been the Ontario Service Technician for the Enviro-Septic System since 2017. Sam has recently become a member of OOWA.

Jean-Pierre (JP) Corriveau, DBO Expert, Canadian Sales Director and Accounts Manager as well as Technical Resource. JP has been with DBO Expert since 2011 but has been working with the Enviro-Septic System since 2001. He has been a member with OOWA since 2011.

BMEC #13-03-365

The Enviro-Septic System is an innovative technology and is approved as an alternative to a Class 4 System producing Tertiary Quality Effluent.

THEREFORE, our BMEC will not be revoked.
