

ADVANCED  
**ENVIROSEPTIC<sup>MD</sup>**

Make-Way Environmental Technologies Inc wishes to congratulate OOWA on a very successful conference. It was very well attended despite the weather. It was also very informative. We will look forward to the 20<sup>th</sup> annual conference in 2019 where the Enviro-Septic System is already signed on as the Platinum Sponsor!

We would also like to take a moment to thank everyone who took part in the various OOWA, ORWC, and contractor meetings that have taken place over the last month! At these meetings, a draw for free Advanced Enviro-Septic pipe (\$1,200.00) was held! **A congratulatory shout out to the winners!**

March 29, 2018 South Nation Conservation Meeting—Benjamin Falconer of A. Degenais & Associates

April 15-17, 2018 OOWA Conference—Dave Oatman of Kirwin & Oatman Construction and Lloyd Collins Construction

April 20, 2018 Peterborough County Contractor Meeting—Jeff Thrower of D & E Campbell Trucking Ltd.

April 26, 2018 ORWC Installer Day—Stephane Sarrazin of M & S Sarrazin Excavating

## Things to Remember!!

The Enviro-Septic® System is a simple and easy septic system, producing Level IV Quality Effluent. It:

- Does not require pumps or aerators
  - Does not require electricity
  - Does not require washed stone
  - Does not have any moving parts
- Does not require any maintenance except an annual inspection
  - Can be installed in ground, partially raised or fully raised.
    - Very easy to install
  - Does not require a mantle.

Make-Way Technologies Inc. also offers the Soil Separator.

## **APPROVED FOR INFILTRATOR CHAMBERS**

**REDUCES SOIL MIGRATION:** Keeps fine soils out of leach field systems.

**DURABILITY:** Fabric is non-biodegradable to ensure that the barrier last as long as the leach field system.

**INSTALLATION EASE:** Make-Way's Soil Separators are supplied in light weight rolls enabling a quick, economical, and easy installation.

**Comes in many sizes! Call us today to order!**
