

Despite the winter-like weather, spring is here! Call today to start working on your System O)) projects!

System O)) is an advanced treatment system meeting the Level IV effluent quality as found in the Ontario Building Code 8.6.2.2. System O)) is CAN/BNQ 3680-600 certified. Therefore, under the OBC rules, System O)) requires an annual inspection.

#### **8.9.2.3. Class 4 Sewage Systems**

**(1)** Every Class 4 *sewage system* shall be operated in accordance with the literature required by Sentence 8.6.2.2. (6).

**(2)** No person shall operate a *treatment unit* other than a *septic tank* unless the person has entered into an agreement whereby servicing and maintenance of the *treatment unit* and its related components will be carried out by a person who,

(a) possesses a copy of the literature required by Sentence 8.6.2.2.(6), and

(b) is authorized by the manufacturer to service and maintain that type of *treatment unit*.

**(3)** The person authorized by the manufacturer to service and maintain the *treatment unit* and who has entered into the agreement referred to in Sentence (2) with the person operating the *treatment unit* shall notify the *chief building official* if,

(a) the agreement is terminated, or

(b) access for service and maintenance of the *treatment unit* is denied by the person operating the *treatment unit*.

*Service inspection agreements are attached to every sample device, just inside the lid as shown in the pictures below. It can also be found on our website for download. Or, if all else fails, call the office and we will be happy to send you one for your client!*

We recently had the opportunity to share System O)) at a few contractor septic training seminars! A big THANK YOU to Porters and Brooklin and to everyone who joined us!

**Questions? Call today! We are here for you!**
